COMMISSION IMPLEMENTING DECISION (EU) 2016/413

of 18 March 2016

determining the location of the ground-based infrastructure of the system established under the Galileo programme and setting out the necessary measures to ensure that it functions smoothly, and repealing Implementing Decision 2012/117/EU

(Text with EEA relevance)

Article 1

The location of the ground-based infrastructure of the system established under the Galileo programme and the necessary measures to ensure that it functions correctly shall be set out in the Annex.

Article 2

Implementing Decision 2012/117/EU shall be repealed.

Article 3

This Decision shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

▼ B*ANNEX*

Title	Location and measures taken to ensure smooth functioning
Ground-based centres	
Two Galileo Control Centres (GCC)	The two control centres were created between 2009 and 2014 in Oberpfaffenhofen (Germany) and Fucino (Italy) respectively. They should be the subject of two agreements, to be signed with Germany and Italy, respectively.
Galileo Security Monitoring Centre (GSMC)	The Galileo security monitoring center, split into two locations, was deployed in France and Spain. Work to set up the site in France ended in 2017 and is the subject of an agreement signed in 2013 with France. Work to set up the site in Spain ended in 2019 (early configuration) and is the subject of an agreement signed in 2019 with Spain.
GNSS Service Centre (GSC)	The GNSS Service Centre is being deployed in stages in Madrid (Spain) and its back-up site in Toulouse (France). They shall be subject of two hosting agreements to be signed with Spain and France respectively.
SAR Service Centre	The Search and Rescue (SAR) Service Centre was set up in Toulouse (France) between 2012 and 2014 and its back-up is being deployed in Madrid (Spain). They shall be subject of two hosting agreements to be signed with France and Spain respectively.
Galileo Reference Centre (GRC)	The Galileo Reference Centre was set up in Noordwijk (the Netherlands). Work started in 2015 and ended in 2017. It is the subject of an agreement signed with the Netherlands in 2016.
